Step 2: Click "*Preferences*" to display a new box with the tabs labeled "*General*" through "*Advanced*". Click on the "*Privacy*" tab located third from the left. Under "*History*", notice the "*Firefox will: Remember History*" tab. Click on the "*Remember History*" tab to display three Options, "*Remember History*", "*Never Remember History*", or "*Use Custom Settings for History*". Click the "*Use Custom Settings for History*".

Step 3: Once you click the *"Use custom settings for history"* tab, the contents of the Privacy box will change in appearance. Make sure that the box labeled *"Accept cookies from sites"* is check to enable cookies.
